

Concrescent Co. LLC

Capability Statement

NAICS: 541519 - Other Computer Related Services

UEI: ZZGDP1T5MV95 CAGE Code: 11XS9 Business Status: SDVOSB Verification In Progress

Company Overview

Concrescent Co. LLC is a veteran-owned technology services company delivering advanced IT architecture, cybersecurity engineering, and systems integration tailored to government and enterprise needs. Our solutions reflect a commitment to operational resilience, technical precision, and federal compliance. We support agencies in transforming and securing mission-critical infrastructure across all domains.

Core Competencies

- SATCOM & downlink maintenance services in commercial and military applications
- Systems Integration & Secure Infrastructure - Enterprise IT design, network segmentation, cloud and hybrid solutions
- Cybersecurity systems engineering to include requirement decomposition and derivation.
- IT Support Services - Help desk operations, endpoint deployment, patching, monitoring

Differentiators

- Veteran-led with operational knowledge of classified and secure IT environments
- Working knowledge of federal cybersecurity policies and contracting requirements
- Proficiency with DISA STIGs, Zero Trust principles, and enclave hardening
- Adaptive to both FFP and T&M contract models
- Experienced in supporting VA, DoD, and civilian agency environments
- While our focus has been outlined above, we have a broader range of capabilities.

Past Performance

- Cybersecurity Systems Engineering – Decomposition and derivation of customer requirements for weapon systems.
- Infrastructure Hardening – Delivered secure switch/router deployments and segmentation for DoD contractor networks
- Field support for military SATCOM terminals to include network integration across multiple security domains
